

# Public Comment Form

## I-70 Enhancements Design Concepts

We would appreciate hearing your thoughts about this project. You may make comments on this form and leave it with City staff at this meeting; or take it home to fill out and send it back within 10 days (May 27, 2023). Please write legibly. There is space for additional comments on the back of this form. Thank you for your input!

Comment forms can be mailed to: **Allison Anderson P.E.**  
**Public Works Department**  
**City of Columbia**  
**PO Box 6015**  
**Columbia, MO 65205**

Comments may also be email to: **PubW@CoMo.gov**  
(be sure to include "I-70 Enhancements" in the subject line)

Please send comments by May 27, 2023. Thank you for your input!

### Comments:

I would say to look for something interesting as a "signature" piece to identify us.

It would be interesting & artistic so that it showed our culture.

### Comments:

- 1) The design alternative should include signals that can be triggered by pedestrians at every point where there is a pedestrian crossing.
- 2) The signals should be present on both sides of every pedestrian crossing.
- 3) I prefer the contemporary design option.
- 4) ~~The~~ The <sup>pedestrian</sup> barriers on the bridge should be included.

### Comments:

This is a "hand-aid". At some point the entire intersection needs to be redesigned to remove the chokepoints. What will happen in a few years when the I-70 expansion project comes through?

How are the needs of pedestrians and non-~~motor~~ vehicular users being addressed?

How does this address congestion from southbound traffic exiting US 63 and Clark Lane traffic?

### Comments:

Prefer the traditional over contemporary as it looks like it would age better from a style view point. I appreciate the focus on making sure we have a defined style for the city of Columbia as it sets the tone for first time visitors. Do we have an opportunity to incorporate our local universities into the design?

### Comments:

The "flyover" on S. side of 70 for traffic heading west off 63 N is a problem for residents of that area b/c of noise and lights. I just bought a house there 1 year ago. Now I feel trapped. Please plan with residents of Eastland Cr. & Eastwood Cr. in mind.

### Comments:

Flyovers are a tremendous asset to the development of our community. Expansion of 70 will also add to the growth of Columbia. Please, please please support this effort.

### Comments:

Most Billboards in Comd are non conforming uses, both under city & state law.

if the footprint of the new interchange causes some billboards to be removed, they should not be permitted to be reset or reconstructed.

Beautification and outdoor advertising (off premises) do not mix.

### Comments:

I like a combination of the limestone and red brick to capture some of MU and the City look. I like both form liners and railings. I prefer wild flowers over the trees and shrubs, a missouri blend for both warm and cool seasons.
