

Cutaway or Wide Body Van

- Front loading
- Can transport up to 14 passengers (12 ambulatory, 2 wheelchairs)
- This particular van shows the lift door in the rear of the vehicle. All of GoCOMO's lift doors are located near the front door.
- All current GoCOMO vans are cutaway/wide body vans.
- Similar to all vehicles currently, supply and obtaining them in a timely fashion is an issue.

Narrow Body Van

- The passenger loading door is in the middle of the passenger side.
- The wheel chair lift is inside the rear doors.
- This type of vehicle can transport 8 passengers and 2 wheel chairs.
- Anticipate this being easier to use on campus and in closer quarters.
- Anticipate this being a little cheaper as well.
- Don't currently have any narrow body vans in GoCOMO's fleet.
- Similar to all vehicles currently, supply and obtaining them in a timely fashion is an issue.
