Mr. Orendorff,

Because of a schedule conflict affecting my presence at the September 18, 2025 public hearing regarding Case #284-2025, I am submitting my response in writing to the required construction of these sidewalks. Sidewalks are not necessary because there are only two businesses on this section of Seventh Street where everyone uses a vehicle to reach them. Driveways take most of the space left for sidewalks.

Best regards,

Joyanne Block
