## ***Specific Short-term Rental Conditional Use Permit Review Criteria.***

- (A) Whether the proposed STR is used for any part of the year by the registrant as a residence. If so, for how long?

It will not be used as a residence by the registrant. We own a primary residence a few miles away.

- (B) Whether or not there are established STRs within 300 feet of the proposed STR measured in all directions from property lines "as the crow flies".

We are unsure of the existence of other properties of this nature.

- (C) Whether the proposed registrant has previously operated an STR and if such operation has resulted in a history of complaints, a denied STR certificate of compliance, or revocation of an issued STR certificate of compliance.

This property was used as an STR previously. They did not have a certificate of compliance.

- (D) Whether the proposed STR will increase the intensity of the use of the property and cause increased traffic or noise coming from the property.

This property was used as an STR previously. It was usually fully booked, so there will be no increased traffic. It is only a 1 bedroom, 1 bathroom home and can only sleep 4 people.

- (E) Whether there is support for the establishment of the proposed STR from neighboring property owners.

We certainly hope so. We plan to run a quiet Air BnB, checking the history of guests that apply to stay with us and only allowing guests with good reviews/standing.
