Comments: The Annual Water tier Report is due in December. This year request that it be an ANNUAL report not just a SUMMER report. Since the report is based upon billed usage it does not accurately cove Tier 3 since about half of the Tier 3 usage in September is billed in October. The WLAB needs to know the annual total not just the total for half of June, all of July and August , and half of September.

It is also desirable to know how the Tea 2 usage changes throughout the year not just in the summer. This Tier 2 data is also incomplete with the same problem as Tier 3 data.
