City Utilities/Solid Waste				
1	55706540 - 505990	55706540 - 506525	\$350,000.00	A transfer of funds is requested to purchase a new trash compactor. This unit was originally acquired on a 3 year lease with a purchase option. This agreement was approved through Council. The original purchase price of the unit was \$747,500. The final purchase price following the lease term is \$350,000. Due to delivery constraints, the lease of a new ust is expected to take approximately 9-15 months. The cost of rental is \$30,000 per month during this transitional period. Due to the expected delivery constraints and the associated cost of rental being equal to the purchase price, the utility has elected to move forward with the ownership of the unit, resulting in the acquisition of the asset.
