

TO: CATSO Technical Committee

FROM: CATSO Staff

SUBJECT: Proposed Amendment to the CATSO FY 2024-2027 Transportation Improvement Program (TIP) for addition of a new MoDOT project

DATE: November 1, 2023

Attached is a proposed amendment to the approved CATSO FY 2024-2027 TIP. The amendment includes one new project in the MoDOT Roadway, Payment, and Construction section.

There are also a number of administrative revisions, which are comprised of projects that were split off from MoDOT Project 5S3411, a large project for Interstate 70 pavement improvement. These administrative revisions include revisions to existing TIP projects 2020-14 (MoDOT Project #5S3411), 2022-7 (MoDOT Project 5I3534) and new projects 2024-8 (CD0171), 2024-9 (CD0172), and 2024-10 (CD0173).

New MoDOT Project Amendment:

MoDOT Roadway, Payment & Construction Projects

2024-11(MoDOT # ST0021): Interstate 70 Improvements – Safety and Capacity improvement from Columbia to Kingdom City

This project has a total budget of \$405,559,000. A portion of this project is inside the CATSO metropolitan planning area, that being the section of Interstate 70 from Columbia to the CATSO eastern boundary at Little Cedar Creek. Funding is budgeted in FY 2024.

Both the new project amendment and the administrative revisions are described in more detail in the attached spreadsheets.

Suggested Technical Committee Action

After review of the amendment, pass a motion recommending that the Coordinating Committee formally approve the proposed FY 2024-2027 TIP amendment at their December 7, 2023 meeting.
