COLUMBIA PARKS AND RECREATION
PUBLIC COMMENT FORM

Please comment on what you like about the proposed potential improvements. Please be concise.

I AM very impressed by the proposed improvements. The extra shelter bike repair stand and battery power tools are a great idea!!

I believe the whole park is a great addition to this town.

I use the park trails to commute 5 days a week. Thank you for this great response.

What would you change about the proposed potential improvements? Please be concise.

The only thing I would mention would be some maintenance that is needed for safety as some of the stairs are beginning to degenerate.

WOULD LIKE A CENTER STRIPE
ALONG THE OUTER LOOP TRAIL ✓

WOULD LIKE TO LIMIT THE
AMOUNT OF STRUCTURES AND
CONCRETE IN THE PARK
AT SOME POINT THE MAN-MADE
FEATURES IN THE PARK SHOULD
CEASE

What would you change about the proposed potential improvements? Please be concise.

THANKS TO ALL THE PARKS AND
REC DEPT. AND CITY OF COLUMBIA ✓
FOR PROVIDING AND MAINTAINING
OUR GREAT PARKS!

Additional water fountain and fixed bathroom
Extra parking should help on busy days

What would you change about the proposed potential improvements? Please be concise.

Consider timer/solar power control for bike charging
I have encountered unhomed people sleeping on the sidewalk/Hinkson Creek trail where it crosses under Broadway. Please consider if these improvements will attract more people to trying to sleep/camp in the park.

25 August 23 jacksonhotaling VOTES 1	<p>Please do not expand parking lot.</p> <p>The cycling station and amenities are an excellent idea, and would be a welcome addition to Stephens Lake Park. This would encourage more cycling. A parking lot expansion would do the opposite--green space needs to be green space.</p>
25 August 23 Camparan VOTES 2	<p>All new lighting to meet dark sky lighting standards and be in the red spectrum ((not over 3000K). Add EV charging station for cars too.</p>
31 August 23 Gloria VOTES 0	<p>Security cameras, especially in all parking lots. My car was broken into one bright sunny afternoon, also 2 other cars. Punched lock ~\$300.</p>
02 October 23 wright.matt.a VOTES 0	<p>Please stop adding so much parking to our parks!</p> <p>Dedicating additional space to parking reduces the amount of green space in parks, while incentivizing driving. We should be encouraging alternative forms of transportation, especially to and within our city parks. Increased pavement contributes to the heat island effect (which is already a significant problem, see the recent heat study done by the city), and incentivizing driving leads to an increase in greenhouse gas emissions (which we're supposed to be reducing - see every city plan that mentions climate). While many cities are converting old parking lots to parks, ours keeps adding too much parking to ours - disappointingly backward thinking for our supposedly progressive city. When I'm out trying to enjoy the natural beauty of our parks, I don't want to see a bunch of personal property all over the place! I do love the charging infrastructure and additional parking for bikes. If anything, add some charging infrastructure for cars too (at least incentivizing electric vehicles if you're going to incentivize driving) rather than adding yet more parking.</p>

27 September 24 Cory	<h3>Light Pollution and Fishing Access</h3> <p>I would like to see Parks & Rec establish lighting guidelines in SLP (and other parks) that reduce light pollution: full cutoff lights for bathrooms and trails, downward-facing lights in parking lots, warmer bulbs, etc. And motion-sensor- and photocell-controlled lights on the trail. I'm not sure why we're burning money having those trail lights on during the day. Also: It would be nice for the anglers if a couple of notches were cut through the bush on the dam. That used to be a popular fishing spot before it was crowded out. I do like the buttonbushes, though. :)</p>
VOTES 0	

23 September 24 Lydialadybug	<h3>Playground upgrade at Stephens Lake Park</h3> <p>I agree that the broken playground structure at Stephens Lake Park needs to be replaced and upgraded. I cannot tell fully from the image, but I hope the suggested playground is suitable for a wide age group. As a mom, it's helpful if play structures have varying levels of difficulty to support a variety of ages. The structure that is there currently isn't the best for children 1.5 - 3 years old.</p>
