

Phase 1 Enhancements

The project involves enhancement of MoDOT standard bridges and interchanges and planning for future enhancement improvements at roundabouts, intersections, and interchanges. These enhancements provide the design standard and materials for future bridges and improvements in future Improve I-70 implementation phases.

ENHANCEMENT COMPONENTS AT TWO NEW BRIDGES - 66 CONNECTOR AND ST. CHARLES ROAD:

- Stone pattern retaining walls
- Decorative bridge façade and fencing
- Light box and pier features
- Decorative lighting
- Decorative roadway signage

OTHER ENHANCEMENTS:

- Decorative pavement at roundabouts
- Conduits for future lighting and irrigation at roundabouts and interchanges

Interstate 70/US 63 Enhancements
Columbia, Missouri
