1. Equipment and software with a cost of \$3,000 or more must be purchased on a competitive bid basis, or purchased through use of state cooperative procurement;
2. Price or rate quotations shall be solicited from at least three (3) qualified sources;
3. All procurement transactions, regardless of whether by sealed bids or by negotiation, shall be conducted in a manner that provides maximum open and free competition;

5. If for some reason the low bid is not acceptable, the Subrecipient must have written approval from the MHTC prior to bid approval and purchase.
6. Subrecipients will make a good faith effort to utilize minority and women owned businesses within resource capabilities when procuring goods and services.
7. Subrecipients will make every effort to purchase equipment as early in the fiscal year as possible. There may be no reimbursement for equipment purchased at the end of the fiscal year.

B. REIMBURSEMENT VOUCHER, SUPPORTING DOCUMENTATION AND PAYMENT SCHEDULE: The MHTC agrees to reimburse the Subrecipient for accomplishment of all authorized activities performed under this contract. Reimbursement proceedings will be initiated upon the receipt of a claim voucher and supporting documentation from the Subrecipient, as required by the MHTC. - A. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below and agrees to comply with the requirements of 2 CFR Parts 180 and 1300.
- B. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
- C. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default or may pursue suspension or debarment.
- D. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the list of Parties Excluded from Federal Procurement and Non-procurement Programs.
- I. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
- C. The prospective lower tier participant shall provide immediate written notice to the person to whom this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

XXV. BUY AMERICA ACT

(applies to subrecipients as well as States)

The State and each subrecipient will comply with the Buy America requirement (23 U.S.C. 313) when purchasing items using Federal funds. Buy America requires a State, or subrecipient, to purchase only steel, iron and manufactured products produced in the United States with Federal funds, unless the Secretary of Transportation determines that such domestically produced items would be inconsistent with the public interest, that such materials are not reasonably available and of a satisfactory quality, or that inclusion of domestic materials will increase the cost of the overall project contract by more than 25 percent. In order to use Federal funds to purchase foreign produced items, the State must submit a waiver request that provides an adequate basis and justification to and approved by the Secretary of Transportation.

All items purchased must be compliant with the National Highway Traffic Safety Administration (NHTSA) interpretation of the Buy America Act including, but not limited to:

1. Items valued over \$5,000 per unit must be manufactured or assembled in the United States of America, or as allowed by a current Buy America Act waiver issued by the NHTSA;
2. All vehicles must be manufactured or assembled in the United States of America regardless of cost.

www.nhtsa.gov/staticfiles/administration/programs-grants/Buy-America-Act-revised-11202015.pdf

Furthermore, the State and each subrecipient will follow the guidelines of 2 C.F.R. § 200.322, Domestic Preferences for Procurements. As appropriate and to the extent consistent with law, the non-Federal entity should, to the greatest extent practicable under a Federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States.

XXVI. PROHIBITION ON USING GRANT FUNDS TO CHECK FOR HELMET USAGE

(applies to subrecipients as well as States)

The State and each subrecipient will not use 23 U.S.C. Chapter 4 grant funds for programs to check helmet usage or to create checkpoints that specifically target motorcyclists.

XXVII. POLICY ON SEAT BELT USE

In accordance with Executive Order 13043, Increasing Seat Belt Use in the United States, dated April 16, 1997, the Subrecipient is encouraged to adopt and enforce on-the-job seat belt use policies and programs for its employees when operating company-owned, rented, or personally-owned vehicles. The National Highway Traffic Safety Administration (NHTSA) is responsible for providing leadership and guidance in support of this Presidential initiative. For information on how to implement such a program, or statistics on the potential benefits and cost-savings to your company or organization, please visit the Buckle Up America section on NHTSA's website at www.nhtsa.dot.gov. Additional resources are available from the Network of Employers for Traffic Safety (NETS), a public-private partnership headquartered in the Washington, D.C. metropolitan area, and dedicated to improving the traffic safety practices of employers and employees. NETS is prepared to provide technical assistance, a simple, user-friendly program kit, and an award for achieving the President's goal of 90 percent seat belt use. NETS can be contacted at 1 (888) 221-0045 or visit its website at www.trafficsafety.org.

XXVIII. POLICY ON BANNING TEXT MESSAGING WHILE DRIVING

In accordance with Executive Order 13513, Federal Leadership On Reducing Text Messaging While Driving, and DOT Order 3902.10, Text Messaging While Driving, States are encouraged to adopt and enforce workplace safety policies to decrease crashes caused by distracted driving, including policies to ban text messaging while driving company-owned or -rented vehicles, Government-owned, leased or rented vehicles, or privately-owned when on official Government business or when performing any work on or behalf of the Government. States are also

encouraged to conduct workplace safety initiatives in a manner commensurate with the size of the business, such as establishment of new rules and programs or re-evaluation of existing programs to prohibit text messaging while driving, and education, awareness, and other outreach to employees about the safety risks associated with texting while driving.

XXIX. PARTICIPATION IN HIGHWAY SAFETY PARTNERSHIPS

All subrecipients are strongly encouraged to participate in Highway Safety sponsored functions including, but not limited to, Missouri Coalition for Roadway Safety regional meetings, applicable subcommittees and conferences; working groups; dedicated enforcement workshops; and grant application and contract award workshops. Subrecipient agencies with positions that are funded via Highway Safety grants are expected to participate (or send a representative) in the above functions as much as possible.

XXX. PROHIBITION ON TELECOMMUNICATIONS AND VIDEO SURVEILLANCE (2CFR PART 200.322)

The National Defense Authorization Act of Fiscal Year 2019 (Pub. L. 115-232) prohibits Federal grant funds from being obligated or expended to procure or obtain (or to enter into, extend, or renew a contract to procure or obtain) certain covered telecommunications equipment, services, or systems. States and subrecipients should refer to the Super Circular for more information on what equipment and companies this prohibition covers.

Equipment regularly purchased under NHTSA grants that may be subject to this provision could include : mobile phones, landlines, and the internet. Note that this provision prohibits purchasing these (and other) items produced by certain companies; items produced by non-prohibited companies are still potentially allowable.

CONTRACT REQUIREMENTS

THE FOLLOWING REQUIREMENTS ONLY APPLY TO CONTRACTS THAT INCLUDE TRAINING

Subrecipients offering the MHTC-funded courses must adhere to the following standard elements required for training contracts:

- A. A course schedule must be presented to the MHTC program coordinator prior to the proposed training. The schedule should include: title of course; date(s); time; exact location; and agenda. Any changes to the course schedule must have prior approval from the MHTC.
- B. Each student must complete a survey form at the completion of the workshop/training. The survey will ask a series of questions concerning adequacy of: training received; instructor's presentation; training facility/location; and worth of the training.
- C. The Subrecipient must provide a sign-up sheet for every class when submitting a reimbursement request for the course (a typed list of everyone who registered is not acceptable). The sign-up sheet must capture the following information:
 - 1. Title of the class
 - 2. Date(s) and location of class
 - 3. Printed Name and signature of attendees (unless otherwise prohibited)
 - 4. Name of agency/organization of each attendee
- D. To ensure cost effectiveness, every effort should be made to enroll a minimum of fifteen (15) students per class.
- E. Copies of the student evaluations, number of students enrolled/number of students attending, agenda/syllabus/curriculum, and participant sign-up sheets must be retained in Subrecipient's files after the training has been conducted and available for MHTC review upon request.

THE FOLLOWING REQUIREMENTS APPLY TO LAW ENFORCEMENT AGENCIES ONLY

A. PROBLEM IDENTIFICATION

Subrecipient must develop a selected traffic enforcement plan by evaluating crash data involving fatal, disabling and moderate injuries. This will be done on an annual basis to determine the highest crash locations, to include: month of year, day of week, time of day, and causation factors. This plan must be used to determine locations utilized in site selection for conducting enforcement efforts. Any changes to the enforcement plan must be made in writing to the MHTC project coordinator in advance of enforcement efforts.

B. PROJECT ACTIVITIES

- 1. Enforcement activities by the Subrecipient must remain at the current level. Enforcement efforts provided by this contract must be in addition to current enforcement activities.
- 2. Officers will be permitted to issue multiple citations and/or written warnings to drivers who have committed several violations.
- 3. High visibility enforcement is a key strategy to reducing traffic crashes; therefore, law enforcement officers working overtime projects are strongly encouraged to make at least three (3) contacts per hour when conducting an enforcement project.
- 4. Subrecipient is expected to participate in associated national or state mobilization efforts in conjunction with, or at the direction of, the Highway Safety and Traffic Division. These mobilizations include, but are not limited to: Click It or Ticket campaign, Drive Sober or Get Pulled Over campaign, Youth Seat Belt enforcement campaign, Child Passenger Safety campaign, Holiday Impaired Driving campaign, and quarterly enforcement efforts. Mobilization reporting efforts shall be completed using the online mobilization reporting form located at: <https://mobilization.rejis.org/>.
- 5. Only law enforcement work performed by a duly licensed, Peace Officer Standards and Training certified law enforcement officer will be reimbursed.
- 6. The Subrecipient will not be eligible for reimbursement for any individual law enforcement officer working under this grant in excess of 40 hours for any two week pay period. The Subrecipient will not be eligible for reimbursement for any individual law enforcement officer working under this grant where said officer is claiming to have worked as a law enforcement officer for more than 16 hours in any 24 hour period.

C. PARTNERSHIPS

Law Enforcement agencies are strongly encouraged to participate in the Law Enforcement Traffic Safety Advisory Council (LETSAC) and attend the general meetings and annual conference. Agencies located within the metropolitan areas of St. Louis or Kansas City should participate in Operation Impact (traffic safety task force).

D. ALLOWABLE COSTS

Full-time, part-time and reserve officers are eligible to participate in overtime enforcement projects. Part-time and reserve officers must have the same authority as a full-time permanent officer. MHTC will reimburse Subrecipient at officer's standard rate of pay in accordance with Subrecipient policies and procedures regarding standard rate of pay and overtime rate of pay. The Subrecipient will not be reimbursed at the overtime rate for work that according to Subrecipient's own policies and procedures does not constitute overtime. Non-POST certified personnel may be allowed, at the sole discretion of MHTC, in a support/administrative role.

Exceptions to allowable costs may be made with prior written permission of the MHTC.

E. DRUNK DRIVING ENFORCEMENT PROJECTS

1. Those officers conducting standardized field sobriety testing must have 24 hours of Standardized Field Sobriety Test training to participate in grant funded enforcement efforts.
2. Agency should participate in quarterly enforcement efforts and the national impaired driving crackdowns held annually.

F. SOBRIETY CHECKPOINTS

Unless otherwise prohibited by state statute or appropriation,

1. The MHTC will fund enforcement agencies to conduct sobriety checkpoints in accordance with standards outlined in the Sobriety Checkpoint Reference Manual and the Sobriety Checkpoint Supervisor Training program.
2. Sobriety checkpoint enforcement efforts must be coupled with appropriate public information efforts to increase the perceived risk of arrest and to enhance the actual risk of arrest.
3. Enforcement statistics and the agency's sobriety checkpoint operations plan must be submitted with reimbursement vouchers.

PROBLEM IDENTIFICATION

Speed and aggressive driving can be any one of us, when we make the choice to drive over the speed limit; change lanes several times in a short distance and/or follow too closely. Aggressive driving is a costly decision, often made in an instant, but can have lifelong consequences. According to the National Highway Traffic Safety Administration, aggressive driving is when an individual commits a combination of moving traffic offenses so as to endanger other persons or property. During the last five years (2015-2019), the combination of aggressive driving behaviors contributed to 53 percent of fatalities and 44 percent of serious injuries in Missouri. Speed-related conditions, including exceeding the speed limit and too fast for conditions, accounted for the most fatalities of all aggressive driving behaviors. Thirty-six percent of all Missouri fatalities over the last five years were speed related.

The City of Columbia continues to have a large number of crashes. According to statistics from the Missouri State Highway Patrol, there were 3,832 crashes in Columbia during the last 3 years including 1,286 serious injury crashes and 29 fatality crashes. This does not include the crashes that Columbia Police Department does not investigate which are crashes involving no injury and no vehicles requiring towing.

The statistics dated 2017-2019 from the Missouri State Highway Patrol showed Columbia ranked 13th in the list of cities in Missouri who recorded traffic crashes. This ranking would be higher as this does not include the crashes that the Columbia Police Department does not investigate involving no injury and no vehicles requiring towing. In addition, Columbia ranked 6th in the state for number of fatality crashes. Additionally, Columbia ranked 7th in the list of cities in Missouri for impaired driving crashes.

The following is a summary of recent enforcement and challenges. In January 2016, the Columbia Police Traffic Unit was disbanded (except for the DWI Enforcement officers). The investigation of traffic crashes and traffic enforcement became part of the responsibility of the Patrol division. While two officers were assigned to traffic duties such as crash investigation and enforcement, they were also responsible for assisting patrol shift with calls for service. This created a reduction in the amount of traffic enforcement occurring within the City of Columbia. In 2016, the number of people killed in fatality crashes in the City of Columbia spiked with one of the highest totals in a ten-year period.

2019 was a period of change as the Traffic Unit was re-established separate from Patrol consisting of two crash investigator/traffic enforcement officers and the two grant funded DWI officers along with a supervisor. However, fatal crashes in 2019 rose to a total of 14 fatal crashes. 2020 continued with the same staffing until October when two Hazardous Moving Enforcement officers were added to the Traffic Unit. One of the positions is grant funded and the other position is department funded. In May 2021, two officers in the Traffic Unit resigned from the department and due to staffing shortage these positions have not been replaced. Ofc. Brad Wolf was moved to the grant funded HMTV position and the department HMTV position remains open. Once staffing recovers the two positions in the Traffic Unit will be filled.

Below shows Columbia PD enforcement of hazardous moving violations over the last several years. The numbers below illustrate the downward trend when there are no dedicated enforcement officers or only a few. In addition from March 2020 to January 2022 during the pandemic, Columbia Police Department officers were directed to only enforce hazardous moving violations which contribute to crashes.

2014: 2,645 speeding citations and 1,518 hazardous moving violations: staffed Traffic Officers
2015: 863 speeding citations and 717 hazardous moving violations, semi-staffed Traffic Officers
2016: 423 speeding citations and 565 hazardous moving violations, no dedicated Traffic Officers
2017: 341 speeding citations and 632 hazardous moving violations, no dedicated Traffic Officers
2018: 659 speeding citations and 1711 hazardous moving violations, no dedicated Traffic Officers, but City authorized internal (non-grant funded) OT for enforcement to target Vision Zero areas
2019: 345 speeding citations and 1,099 hazardous moving violations, semi staffed Traffic Officers
2020: 812 speeding citations and 1,505 hazardous moving violations, semi staffed Traffic Officers (4 officers until October and 6 officers after October)
2021: 595 speeding citations and 1,458 hazardous moving violations, Traffic Unit fully staffed with 6 officers through May and then 4 officers after May)

Enforcement of traffic laws remains one of the key components to reducing crashes along with education and engineering. Traffic issues are one of the top citizen complaints. The combination of staffing in the Traffic Unit and Overtime for additional enforcement contribute to a reduction in traffic crashes.

GOALS/OBJECTIVES

Core Performance Measure Goals

1. Based on a goal of 0 fatalities by 2030, Missouri is projecting a five-year average target of 361.0 speed related fatalities by December 31, 2022.

- Reduce traffic fatalities to zero by year 2030 (Vision Zero goal).
- Reduce traffic fatalities and all crashes during grant year (FY 22) by 3 to 5%

PROJECT DESCRIPTION

This grant is to fund overtime salaries for officers to work Hazardous Moving Details. This will assist in targeting areas where we have identified high crashes and/or target known causes of crashes such as distracted driving and pedestrian violations. It can also be used to target high risk areas such as school zones and work zones.

The grant money will also be used to fund additional enforcement during statewide campaigns, holidays, and special events. This will be used to supplement regular enforcement activities done by Traffic Officers. There will be an enforcement project conducted each month and two enforcement details during the months of March to November resulting in a total of 21 traffic details.

Generally, the hours of the detail will be a 4 hour slot during the hours from 6 a.m. to 8 p.m. which account for the majority of the crashes in Columbia. The details will generally consist of five officers and a supervisor. The details may involve saturation patrols. Saturation details are where a location is targeted with one officer assigned to identify which vehicles to stop (speeding using a Lidar or Radar Operator, following too close violations, distracted driving ordinance, etc) and other officers to stop the identified vehicles. Saturation details target specific high crash areas identified with an officers developing their own reasonable suspicion for traffic stops for hazardous moving violations. The saturation details may be over a period of a couple of days with a few officers working each day to gain higher visibility and deterrence. Both methods are effective in targeting high crash areas to reduce crashes.

A press release or social media post will be made to make the public aware of our enforcement efforts. If possible information will be shared after the detail to indicate the number of traffic stops and tickets/warnings issued.

Dedicated Impaired Driving Enforcement Unit:

FY 2021: \$1,116.97 unexpended. \$467.61 was from training and due to pandemic precautions, training was limited. The remaining \$649.36 is from the personnel budget.

FY 2020: \$1,547.38 unexpended. \$1,500 was budgeting for training. Due to pandemic precautions, our department was not sending anyone to training unless related to maintaining certifications. This was to reduce exposure of officers to COVID.

FY 2019: \$4,633.26 unexpended. This is mainly due to Ofc. Shane Mosby voluntarily coming out of the Dedicated Impaired Driving Enforcement Unit. Officer Jordan Payne replaced him, however, the position was empty for a couple of weeks.

Dedicated HMV Grant:

FY 2021: \$9,453.22 unexpended. The majority of this amount is in equipment as we had over \$7,000 left.

Saturations:

FY 2021: DWI: \$3,007.55 remaining. Details planned, officers not signing up consistently.

FY: 2021: HMV: \$7,439.12 remaining. Details planned, officers not signing up consistently.

FY 2020 - DWI: \$3,250.35 not used. Pandemic precautions from department restricted traffic details during March and April.

FY 2020 – HMV: \$11,081.43 not used. Pandemic precautions from department restricted traffic details during March and April. Traffic details resumed in March but was unable to use all of funding (some officers were worried about working extra assignments due to covid).

FY 2019: All money was spent.

Youth Alcohol Enforcement:

FY 2021: \$8,020.60 not used. Pandemic restrictions limited when bars and restaurants were open and City Health Department enforced health orders making tension high when officers went into an establishment. Also struggled to get officers to sign up for some of the dates due to competing with off duty jobs. For this year, we have a plan in place to do compliance checks and get buy in from officers to sign-up.

PROJECT EVALUATION

The MHTC will administratively evaluate this project. Evaluation will be based, at a minimum, upon the following:

1. Law enforcement compliance with state UCR, Racial Profiling, and STARS reporting requirements (law enforcement contracts only)
2. Timely submission of monthly reimbursement vouchers and appropriate documentation to support reimbursement for expenditures (i.e., personal services, equipment, materials)
3. Timely submission of periodic reports (i.e., monthly, quarterly, semi-annual) as required
4. Timely submission of the Year End Report of activity (due within 30 days after contract completion date)
5. Attaining the Goals set forth in this contract*
6. Accomplishing the Objectives* established to meet the project Goals, such as:
 - Enforcement activities (planned activities compared with actual activities)
 - Programs (number and success of programs held compared to planned programs, evaluations if available)
 - Training (actual vs. anticipated enrollment, student evaluations of the class, student test scores on course examinations, location of classes, class cancellation information)
 - Equipment purchases (timely purchase of equipment utilized to support and enhance the traffic safety effort ; documentation of equipment use and frequency of use)
 - Public awareness activities (media releases, promotion events, or education materials produced or purchased)
 - Other (any other information or material that supports the Objectives)
7. The project will be evaluated by the Highway Safety and Traffic Division through annual crash analysis .

Evaluation results will be used to determine:

- The success of this type of activity in general and this particular project specifically ;
- Whether similar activities should be supported in the future; and
- Whether grantee will receive funding for future projects.

*Evaluation and requests to fund future projects will not be based solely on attaining Goals and/or Objectives if satisfactory justification is provided.

- Crash data before the detail will be analyzed and compared to traffic data after the details to judge effectiveness of details and if any modifications need to be made in enforcement areas or times.

- Traffic enforcement data from the details will be analyzed by the Traffic Supervisor . This will be done to determine efficiency of the detail. Any issues with officer performance will be addressed. The detail will also be analyzed to determine if further enforcement is needed or changes to the enforcement details.
