Specific Short-term Rental Conditional Use Permit Review Criteria.

- (A) Whether the proposed STR is used for any part of the year by the registrant as a residence. If so, for how long?

The property may occasionally be used by us for short stays, but it will not serve as our primary residence.

- (B) Whether or not there are established STRs within 300 feet of the proposed STR measured in all directions from property lines “as the crow flies”.

To my knowledge, only one other STR application exists within 300 feet. I am not aware of any others. Neighbor support will further confirm that this use will not oversaturate the area.

- (C) Whether the proposed registrant has previously operated an STR and if such operation has resulted in a history of complaints, a denied STR certificate of compliance, or revocation of an issued STR certificate of compliance.

This property has no history of complaints. It holds an outstanding reputation on STR platforms. We maintain open communication with neighbors and address any concerns immediately. Compliance has been consistently upheld.

- (D) Whether the proposed STR will increase the intensity of the use of the property and cause increased traffic or noise coming from the property.

The proposed use will not increase traffic, parking demand, or noise. The property has already operated below the maximum allowed nights without issue. It has proven to work smoothly in the neighborhood.

- (E) Whether there is support for the establishment of the proposed STR from neighboring property owners.

Yes. Neighboring property owners are supportive, and I will submit written evidence of this. Our business presence next door allows for direct oversight and regular contact with neighbors, which further ensures accountability and responsiveness.
