I am very excited about and strongly support the proposed expansion of the Columbia Sports Fieldhouse. This is a truly outstanding facility for all Columbians. I have been involved with both futsal and basketball in this facility. It serves the needs for both of these sports very well. It is very helpful to have multiple courts divided as they are with the soft walls.

What would you change about the proposed potential improvements? Please be concise.

I am very pleased with what I see proposed at this time with the additional 4 courts

The present plans seem to me to be very satisfactory

Hugh Kennon MD

More courts and space for additional sports. The additional courts provide more time for an expanded array of physical activities - currently the activities hosted are quite limiting.

What would you change about the proposed potential improvements? Please be concise.

Expand with a floor that can host other sports. The current floors have warranties that limit the types of activities that can be played. CoMo Roller Derby would LOVE to skate here and the floor warranty is the barrier to that being a possibility.

I love that the proposed space is multi-use and can accommodate multiple different types of sporting events. It shows that Columbia is interested in serving a wide community of athletes, as well as making more space for basketball tournaments and events.

What would you change about the proposed potential improvements? Please be concise.

I would love to see a wider array of sports that can be supported. With the closing of Empire Roller Rink, Columbia lacks a space for roller derby, roller hockey, speed skating and roller skating in general.

~~Back Fun 5~~

I like the increase in size but build each court a little bigger so we can put 2 courts side by side. Volleyball is the fastest growing girls sport and we are missing out on large tournament opportunities.

What would you change about the proposed potential improvements? Please be concise.

Each full size court should be large enough to hold 2 tournament regulation volleyball courts & basketball courts (see Lawrence Sports Pavilion). This would allow for more practice facilities for volleyball with enough room between the dividers for jump serving. In addition, this would give us 8 new volleyball courts in the new addition + 4 regulation courts to hold USAV, JVA, & AAU tournaments for the Midwest Region. We currently have to travel to KC or St. Louis or Omaha for any National Qualifiers

I like the possibility of more space for our community to host sporting events, with plenty of parking, & in a nice spacious building.

What would you change about the proposed potential improvements? Please be concise.

It is imperative that the flooring in the new parts of the building be roller accessible for our derby team, roller hockey players, leisure skaters, & wheelchair sports. These athletes deserve a space in our city & our community.
