Re: Setting a Public Hearing for the Northland Drive Traffic Calming Project

Executive Summary

Setting a public hearing for May 15, 2023, to consider the installation of traffic calming devices on Northland Drive between Blue Ridge Road and Parker Street. The estimated cost of the project is \$55,000.

Discussion

Northland Drive scored as the 7th highest priority project within the 2021 Neighborhood Traffic Management Program (NTMP), with a score of 75.67 out of a possible 100. The scoring system takes a number of factors into consideration including speed, volume, pedestrian generators in the area, proximity to schools, bike routes, and recent crash history. The majority of the scoring (2/3) is based on speed and volume of vehicles. Northland Drive scored at the 85th percentile speed of 49.28 mph and has over 1,200 vehicles traveling on it per day.

Two Interested Parties (IP) meetings were held for this project. The first IP meeting was held on December 1, 2022. The second IP meeting was held on February 28, 2023.

During the first IP meeting, staff gathered information from the public and listened to potential solutions. The majority of those in attendance and providing feedback were supportive of traffic calming efforts.

Preliminary plans were developed and presented during the second IP meeting. The majority of those in attendance and providing feedback were supportive of the proposed plan for calming.

Staff would like to proceed with the construction of eight speed humps, and one raised crosswalk on Northland Drive during the 2023 construction season.

The calming devices will be located at the following locations:

- Speed hump on Northland Drive near the Bear Creek Bridge
- Speed hump on Northland Drive near 2909 Argyle Road
- Speed hump on Northland Drive near 2933 Northland Drive
- Speed hump on Northland Drive near 2909 Haden Drive
- Speed hump on Northland Drive near 2907 Northland Drive
- Speed hump on Northland Drive near 2811 Northland Drive
- Speed hump on Northland Drive near 2734 Northland Drive
- Speed hump on Northland Drive near 2716 Northland Drive
- Raised crosswalk at current Bear Creek Trail crossing

Fiscal Impact

Short-Term Impact: The estimated cost for the installation of a series of eight speed humps and one raised crosswalk, including signs and markings, is \$55,000 paid from Annual Traffic Calming Funds.

City of Columbia

701 East Broadway, Columbia, Missouri 65201

Long-Term Impact: Staff anticipates the replacement of the traffic calming devices every 15 years.

Strategic & Comprehensive Plan Impact
