Sec. 27-150. - Same—Other streets.

(a) All streets, other than residential streets and limited access state-controlled highways, shall have continuous lighting.

(b) All continuous lighting shall meet the requirements of the American National Standards Institute for street and highway lighting, unless otherwise directed by city council.

(c) The size, type and kind of poles, luminaires, circuits, etc., for continuous lighting shall be as herein provided and as determined by the director to be most feasible, practical and compatible to the area.

(Code 1964, § 15.740; Ord. No. 16049, § 1, 6-21-99)
