What do you see as the strength of this priority area?
An engaged workforce provides better public service
In my opinion, when any employee has a voice regarding the expectations of their position and that voice is heard, it is an empowering experience for the employee. An empowered employee, who is also shown through compensation that they are valued, will be an employee willing to go above and beyond job expectations. This will present to the public a staff that is pleasant and helpful, and in turn, will improve the publics' experience, resulting in an increase in positive public opinion.
Foster a positive, equitable organization culture.
Improving experiences across city services.
You mention the word business.
Increase employee satisfaction with pay and benefits

An engaged workforce provides better public service

In my opinion, when any employee has a voice regarding the expectations of their position and that voice is heard, it is an empowering experience for the employee. An empowered employee, who is also shown through compensation that they are valued, will be an employee willing to go above and beyond job expectations. This will present to the public a staff that is pleasant and helpful, and in turn, will improve the publics' experience, resulting in an increase in positive public opinion.

Foster a positive, equitable organization culture.

Improving experiences across city services.

You mention the word business.

Increase employee satisfaction with pay and benefits

There are some areas of the city that seem organized, others not so much and WAY too much talk, not enough action across the board.

Listening to employees

Essential if Columbia is to thrive and support all who live here

Managing resources through accountability.

Increasing city workers pay

Efficiency & innovation

I dont

The strengths in this priority area's are The Leaders in the government. Columbia needs fair leadership to begin stronger community

Maintaining qualified and experienced city employees

The diversity of people

I think the collaborative and equitable aspects are good goals.

I think having employees who enjoy working will lead to less turn over and help the experience of residents in the long term.

Increase employee satisfaction with pay and benefits

Increase employee satisfaction with pay and benefits

I want my city government to be small and professional. I do not want to see any growth in areas that limit business growth or create more government oversight.

Pay your trash people more and improve trash service.

A government that manages their resources wisely

Employee pay and benefits

Job performance stems from job satisfaction, and job satisfaction comes from adequate compensation. Well-paid workers are happy and productive.

Better pay and benefits attracts more talent and better customer outcomes.

What about the children

Trusting employees input

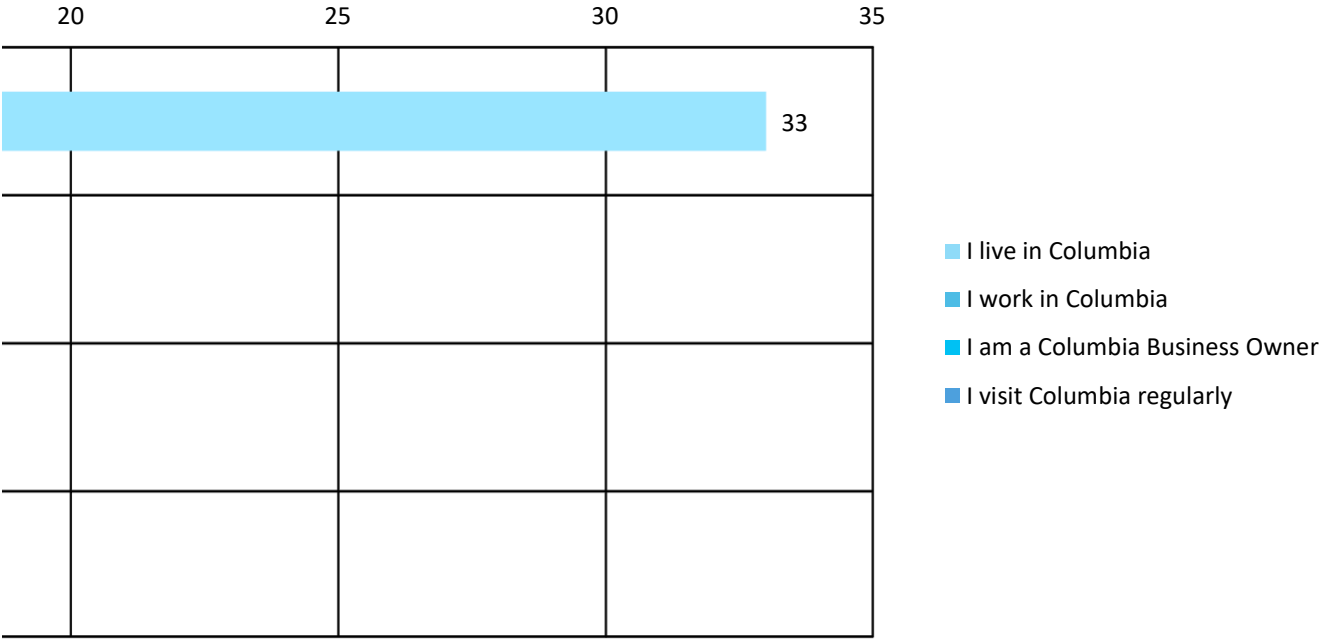

Citizen focused with diversity

What would you like to see added to this priority area?

Interactive websites for all city departments, where the public can participate openly in all aspects of city functions.

Law enforcement interaction with young African American youth relationship building program . Law enforcement is valuable part of all community's.

I would like to see an action item on how talent is going to be attracted to city employment without the mention of money.

I don't like going downtown and being touched by homeless people. The panhandlers at every stoplight are annoying and scary

Quite wasting millions of dollars, dragging your feet and move forward as a BUSINESS would.

Ensure strategic plan actually matches what is happening - so frequent reviews

Hear all residents!

Police mental health workers. Social workers to respond prior to police for obvious mental health issues

More money to pay city workers better

Having diverse political options in leadership. Instead, we only on have one currently.

Less hours to work and more time to get to know our community. People work longer hours less pay and less enjoyment of Life. Just my opinion.

When you say "improve" I assume you mean safety but I would like to see that added.

The biggest priority is finding a sustainable and maintainable way forward for waste collection. The city does not have to have its hands in the business specifically, especially when other cities around us have paved a path for contracting companies to handle the work and also keep prices low and reasonable.

Roll carts

Better pay and benefits for our public servants in the police and fire department. Without them, we have no city.

The first three bullets are of the government, by the government and for the government. You don't need money to solve these - you need leadership. The fourth bullet sounds like more trails and parks - which I don't want. The last bullet is important to me - but again that takes leadership - it is not something you buy with tax money.

Pay trash people more, they need a living wage you fucking assholes.

It seems like we only allocate tax money to parks/schools when we're voting. I think a break from spending on parks and a time period where we work to raise money for infrastructure would be far more beneficial to our city.

Providing training opportunities to minority groups or students in more ways than just CARE

I would like to see pay and benefit increases time-of-service and job performance.

More places for childre there's nothing for the children to do

Council to be real and face our real issues not their pie in the sky BS Tell us truth about real issues such as electricity water etc. not blowing smoke that it is possible to be 100% by 2030. Duh

Assist citizen with learning and establishing entrepreneurship.

What do you see as a strength in this priority area?
Keep the people who use guns in jail. The Chuck E. Cheese shooter, the Boone tavern shooter, and drug arrests are all the same. Quit letting them out of jail.
Improve outcomes associated with the City's community safety function
Why are whites not included? Do we not have a voice and don't you want our trust.
Emergency preparedness
Improve services to homeless, helping to solve problems, housing, addiction help, but not cause more homeless to come here
none, You need to build trust with the whole community one just Black, Indigenous, and People of Color. It should be " Build trust between the City of Columbia and the whole community"
In this priority area. The strengths of Leadership again is always good for all. But, I want a Leader that listens, will be fair and understanding also that over stands that most residents in Columbia needs help of all kind.

Build trust between City of Columbia and Black, Indigenous and People of Color

I think all of these are good priorities ,but trust is built by keeping promises and following through on commitments. I hope that is what is in mind.

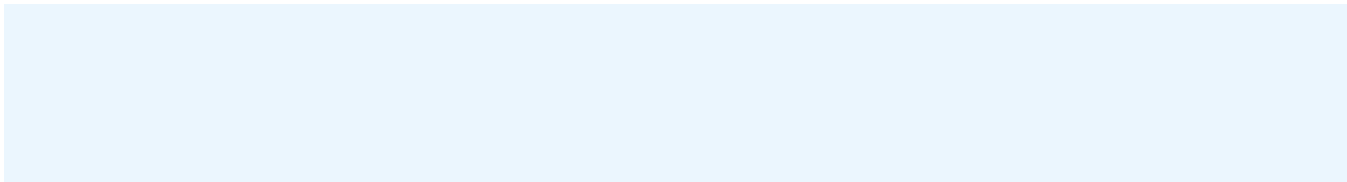

Building trust between the city and POC (people of color)

The focus on building trust between people of color and the police

Equitable services sounds great.

I feel that services to the city's most vulnerable population is a huge priority.

Emergency preparedness

What would you like to see added to this priority area?

Build a homeless shelter in Calloway County

Community involvement and investigating the root cause of our unsafe neighborhoods

All people should be heard and respected. No one should be excluded but yet I feel I am.

Mental health assistance prior to police response in obvious mental health crisis calls

Reparations in ownership of Land and grants to build our homes on our land

Better Street and neighborhood lights.

We need to listen and help people who are trying to help themselves. Help them move into the middle class. If that means a support and assistance okay, but let's get people back on their feet working. A decent job solves most of these issues.

I would like to see how the city plans on achieving this. I think that all city personal should the event of intentional harm or harassment should be terminated from their position immediately, regardless of position.

1. A focus on "community policing". Police should be out in the neighborhoods they patrol on foot or bike, actually interacting with the community and building up trust and respect, instead of always sitting in their patrol vehicles.
2. Address all of the crimes of rape and hazing that occur on MU's campus as a result of the toxic Greek life culture.

I would like to see a diversification of the police department. Not all issues require guns to solve.

I was homeless from August 2021 until March of 2022 and there is a definite need for a low or no barrier homeless shelter in Columbia. Although the Room at the Inn is an option during winter months, the space is limited, and I have seen people turned away. The Salvation Army requires identification which is not always available as well as sobriety which also can be challenging for some, those barriers alone, can eliminate them as an option. In addition, there is no place for the homeless to go

Pedestrian, not bicycle, safety as we attempt to become a walkable city. I also feel that panhandling, homelessness and mental illness have been repeatedly ignored for decades.

What do you see as a strength in this priority area?
Option a has been brought to the table. Thank you mr sorrels !!!!!
Maintain and expand Columbia's infrastructure
Hopefully Street repairs are the top priority in regards to infrastructure if not that will be a big mistake.
The trail system in town
Make roads turn lanes safer. Roundabout Oakland & Vandiver. Need acceleration & deceleration lanes on Hwy 63 south by Eagle Noll turnoff. Very dangerous!!!!

Preparing for climate change is the strongest strength in this priority area.

Prepare for climate change

Maintain and expand Columbia's infrastructure

Maybe. If this is free internet for all, reliable public transport and no potholes then yes. I do not want to see money spent on climate change. Instead enforce the laws on the books and make it easy for people to transition to sustainable sources of energy.

Maintain and expand columbia's infrastructure

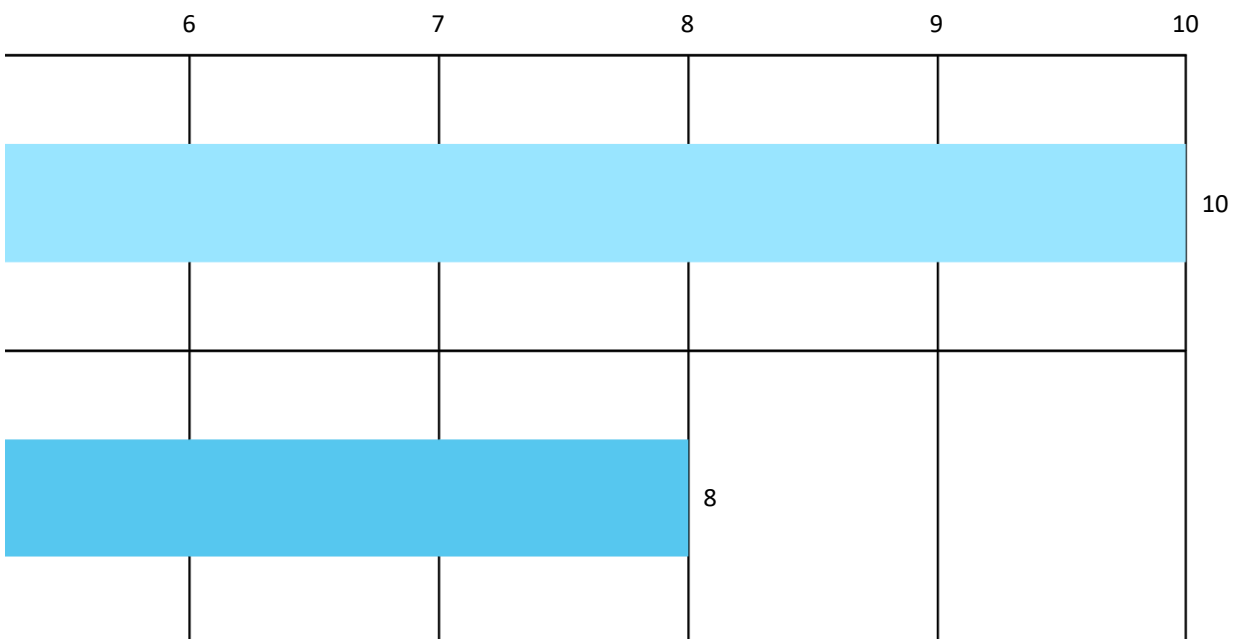

A focus on natural environments and combating climate change.

Infrastructure is key to all areas of the city; there is a sense in many parts of Columbia that the south side of town gets maintenance and upgrades much more quickly than the rest of town.

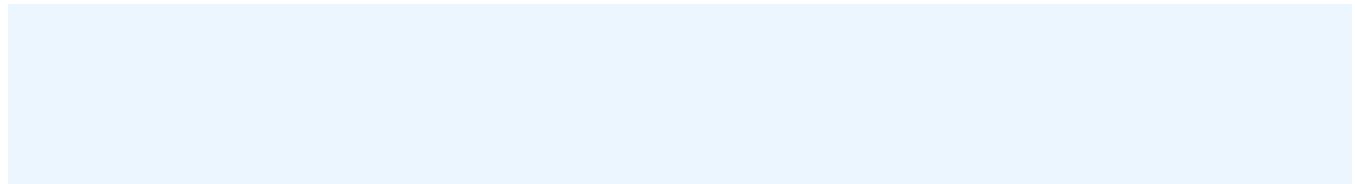

In my opinion, the preparation of the environments for climate change is a very important goal. Both natural and built environments provide habitat for the wildlife as well as assist with issues such as erosion, not to mention the aesthetic beauty which is never a bad thing especially to tourists and visitors to our community.

What would you like to see added to this priority area?

Narrowing of lanes to calm traffic, making stoplights "smarter", get rid of Euclidean zoning, parking minimums and setback requirements, creating fully separated bike lanes instead of painting lines on the road, etc. Also, the "goal statement" seems like a bunch of vague jargon.

Please FIRE AND GET OUT OF SOCIAL SERVICE BUSINESS. IT IS NOT IN CITY CHARTER

More infrastructure to Midway.

How will these goals be measured?

How do you know which outcome areas need to be addressed?

Not added but taken out! If you leave equitably that leave our streets out!

Improvement of the 70/63 interchange. Three lanes on I 70 through town. I know that's modot, but come on! It's ridiculous

I would like to see we will not overtax our community to make this happen.

Preparing Land for POC to own and money to build homes for our family

These questions are horrible. What do you mean??!

NO MORE PARKS

A lot of our infrastructure needs can be outsourced to companies. I would prefer to see us do more outsourcing to be able to get services, faster, cheaper and create jobs in the process.

I think it's incredibly important to expand and maintain in the areas /ways mentioned above. But I think adding a mission statement that is more business centered would go a long ways. Such as, promoting infrastructure that inspires optimal business growth or will have the best return on the dollar.

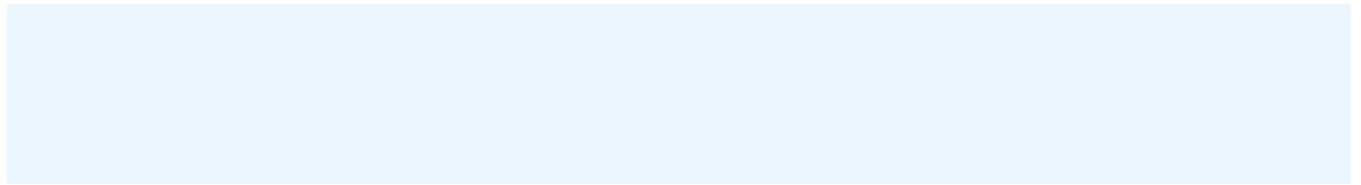

Spending money with no regard for ROI doesn't seem wise. However, I know in some (hopefully not

We need more greenways and trails so bike or pedestrian travel is even easier. Also, the city should mow less acreage in city parks. Convert these areas to native grasses and forbs. This will help with climate change and save the city money in the long-run. The citizens of COMO will enjoy the wildlife and wildflower viewing opportunities as well.

Expansion of Providence. Look into new, more durable road construction materials.

I would like to see more urban forestry. Tree-lined boulevards and possibly water features in some of the traffic circles.

The electric/sewer/water infrastructure needs help. This is not new news. Nobody seems interested . The city council direction to water and light to be 100% in renewables by 2030 is completely unrealistic and will never happen. Why is the city not being truly innovative and going after small nuclear power supply? If you want to be a leader be one.

What do you see as a strength in this priority area?

I don't see inr.

Ensure all members of the community experience equal opportunity and treatment in all interactions with City government

If you truly listen to all people with an open mind instead of a chosen few!

That there is people of color in the system who knows what we need in the community getting the good old boy system due to fear of being retaliated on from Police department

I think adding Juneteenth is a good step for Columbia as well as the black history trail downtown to learn our history

Continue community focus on interactive decisions. Police citizen task force etc.

none

I see the strength in ensuring All members of the community experience equal opportunity and Fair and just treatment in all interactions with city government.

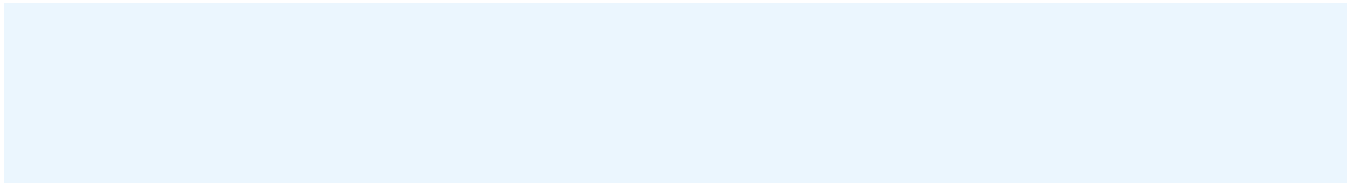

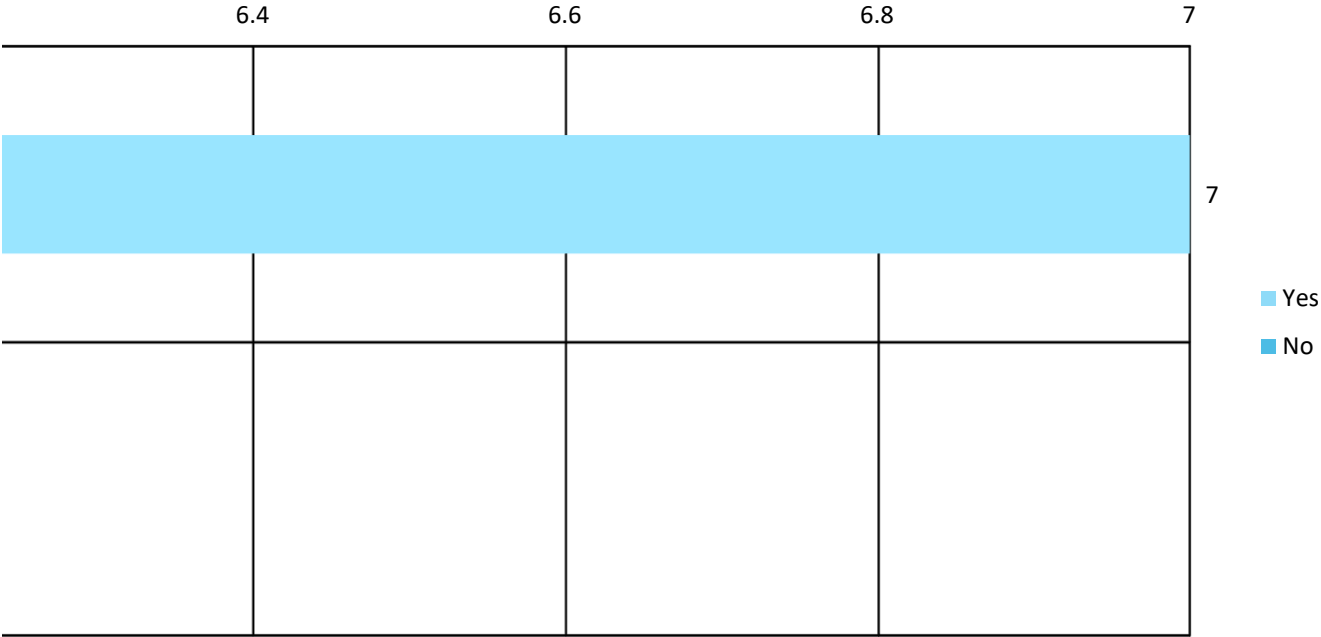

Ensure all members of the community experience equal opportunity and treatment in all interactions with City government

This is kind of a no brainer. The fact that we have to prioritize this is sad.

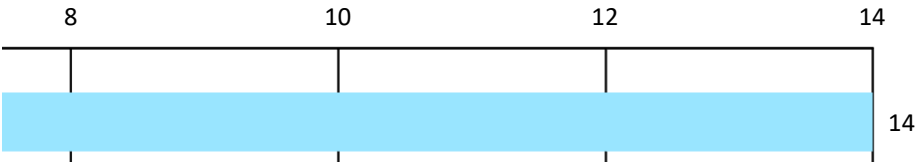

Inclusivity is important, but it's easier said than done.

Improving community engagement is huge. There are several disadvantaged communities (I am thinking of the homeless community) that have no one within their group representing them. There are others who speak for them, based on what they have observed, but it is not the same as actually having someone who is living it or has lived it speaking from their personal experiences.

to

What would you like to see added to this priority area?

Get more police downtown!!!
Take care of our awesome officers!!!! Get the gangs out of Columbia by keeping them in jail.

I am white and straight so I don't feel like I have a voice.

As before people of all colors to serve in government

More opportunities to work together as a community and learn from each other

Race should not be the main reason. Also, the loudest voice should not always be the main focus.

I would like to see added to this priority area police abuse on the residents in Columbia MO. We need to address this priority area. Our officers are out abusing their authority onto the POC here in Columbia. There's a Young Man that was beaten by CPD while and young lady laid bleeding of a gun shot. This young was just Helping his follow citizen on request of the female with the victim. The police payed no mind to the injured Lady, CPD only paying attention to the Black Man that was helping. Yes,

Be more open and show more action when someone does good or bad!

Our local non-profits are a strength. Why not fund them to meet many of these needs.

A focus on environmental justice.

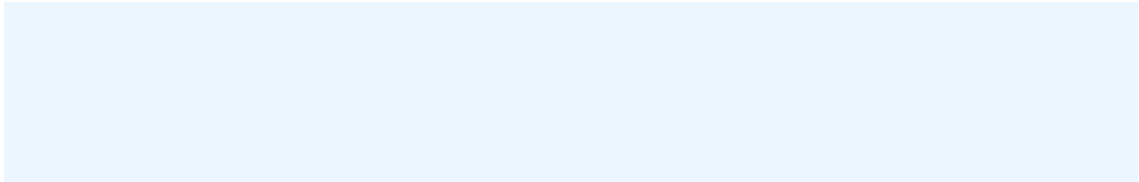

What about ambassadors from the various cultural, social, political, and identity groups who could report to the city council on needs/demands.

I would like to see a low-barrier or no-barrier homeless shelter, where the only criteria to stay there is need. A safe place for people living in "the streets" to go and sleep, eat, shower, do laundry, get mail. Perhaps the shelter could also provide other services and amenities such as assistance with mental health issues and a computer lab with volunteers that could assist with writing resumes or filling out a disability packet or a housing packet. Case management would be a plus.

What do you see as the strength of this priority area?
Half of our work force live outside Columbia. It's too expensive to live here.
Expand the supply of affordable housing for low-to moderate-income members of the community
I don't see it.
A diverse business community.
Expand affordable housing options. Make decisions based on data. Continue to support recycling infrastructure !!!!!
Expanding the supply of affordable homes and housing in the community.

Expand the supply of affordable housing for low-to moderate-income members of the community
Reduce the burden of transportation to finding and maintaining employment and employees

Yes, love this one.

Affordable housing

Sustainability

They jobs try to be diverse in the mission but lack it on the job and don't hold people or jobs accountable for lack thereof

Expanding supply of affordable housing for low and moderate income persons and reduction of transportation burden.

Improving transportation

More diverse business

What would you like to see added to this priority area?

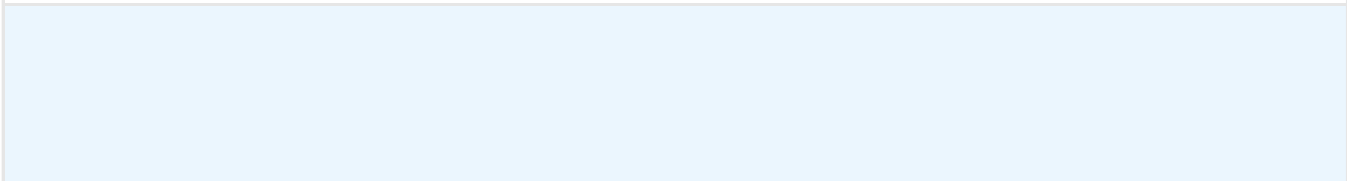

Support current businesses.

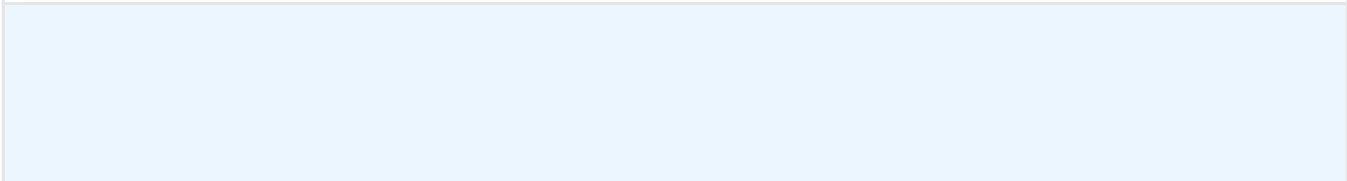

Get specific about what exactly you will do to achieve these outcomes.
Affordable transportation should be available at times which match community needs i.e. early morning and late night and weekends

Again I see large busses traveling with a hand full at best on them. Have you considered purchasing small busses?

An increase in affordable housing

I would love to see you guys add Land ownership offers in this priority area

Better Snow cleanup for those who walk or take the bus so they can get to work.

I think we have the data already - we are just not acting on it. I do NOT want to see another study or strategic fact finding report - just do what we already know needs to be done. I'm all for a more diverse business environment but I hope what you mean by that is a lot of new small businesses and NOT just funding certain types of people.

Encourage sustainable business growth in ways that financially benefit all. As a realtor, An issue I've seen with the affordable housing opportunities is that you cap what a homeowner can sell the home for. They miss out on a lot of ROI. Which is the most lucrative part of owning a home in my opinion. The current program essentially allows people to rent homes while having the "pride of ownership". But they don't get the reward in the end. I'm hoping we can find a better way.

Promote businesses that care about sustainability and have an environmental ethic as a part of their corporate culture

City-run wi-fi network. Private ISPs need the competition to force them to maintain or upgrade their infrastructure and equipment.

These jobs need to be more diverse and equal. I should be able to feel free to be myself without others feeling threatened or calling me aggressive bc I have a stronger personality than them r more dedication

In the previous survey, I suggested revising the bus routes so that people of low to moderate income (the majority of people using public transportation) would have better access to places that offer services. For example, of the following, Family Services, V.A.C., License Bureau, Probation and Parole, CMCA, Burrell - Stephen's Lake, Salvation Army and Turning Point, only Turning Point is on a bus line. I think that the community that most utilizes the transit system could be better served if these

Attracting employers that can maximize the education of Columbia's college graduates.

Affordable housing implementation is destroying localized economies in city areas where it has been implemented. Failed implementation of affordable housing will only inhibit more economic growth. That part of this plan is tone deaf.
