**ACCESS ALL YOUR DATA IN ONE PLACE?**

## **WHAT DOES THIS MEAN FOR YOU?**

- Build Community Trust and Relationships
- Provides a Platform That Becomes a Force Multiplier
- Provides the Ability to Properly Allocate Resources
- Increased Ability to Respond to and Solve Crime

**A PLATFORM THAT MAKES YOU MORE EFFECTIVE AND EFFICIENT**

## Connected Communities Are Safe Communities.

- The Columbia Connect Program enables residents, businesses and local public safety agencies to work together to keep the city safe for all its residents and visitors.
- The program introduces the latest community-oriented tools that will help create a true partnership between residents and local public safety agencies to mitigate crime and increase livability.
- These tools include a security camera registry, the ability to share footage with law enforcement in case of an incident, and a crime tips and chat platform to build closer ties within the community.

## How it Works

---

- Streamlines Emergency & Incident Management, by Fusing all Community's Video Assets into a Single Platform.
- Enables Real-Time Crime Centers to Efficiently Gather Intelligence.
- Provides First-Responders with the Tools to Efficiently Monitor and Rapidly Respond to Evolving Situations.

## Police use new technology to track down, arrest suspects firing gunshots

...but the recoil of the pistol being fired is clear to see.

BECKWITH ST AND BONAIR ST 2022-04-02 04:39:35 PM

By WSBTV.com News Staff  
April 19, 2022 at 11:44 am EDT

ATLANTA, Ga. — Atlanta police have made two arrests with the help of some new technology. Police were called to the 800 block of Beckwith Street after their new FUSUS system detected gunshots in the area. One officer accessed the department's integrated camera and viewer, which helped locate the address where the shots were fired. The officer was

It's already proven effective, giving JPD a look at the aftermath of the shooting that took place [just hours before the governor's State of the State address](#).

"We were able to grab video instantly because we're on the platform and have it to the police department within 15 minutes," he said.

SHREVEPORT, La. (KTAL/KMSS) – It's been a little over three months since the Real-Time Crime Center was launched in Shreveport as part of the #SaferShreveport campaign, and city officials say it is already making a difference.

The RTCC is currently monitoring more than 100 surveillance camera feeds 24 hours a day from over a dozen businesses and homeowners in the network. Shreveport's Chief Technology Officer Keith Hanson says the city plans to put up more than 90 additional cameras around the city over the next few months.

## Keep Columbia safe and build closer ties within our community.

Deploying Fusus will enable the Columbia Police Department to respond and allocate the proper resources more efficiently, equipping officers with advance knowledge of the situation, and enable investigators to more easily gather evidence in case of an incident.

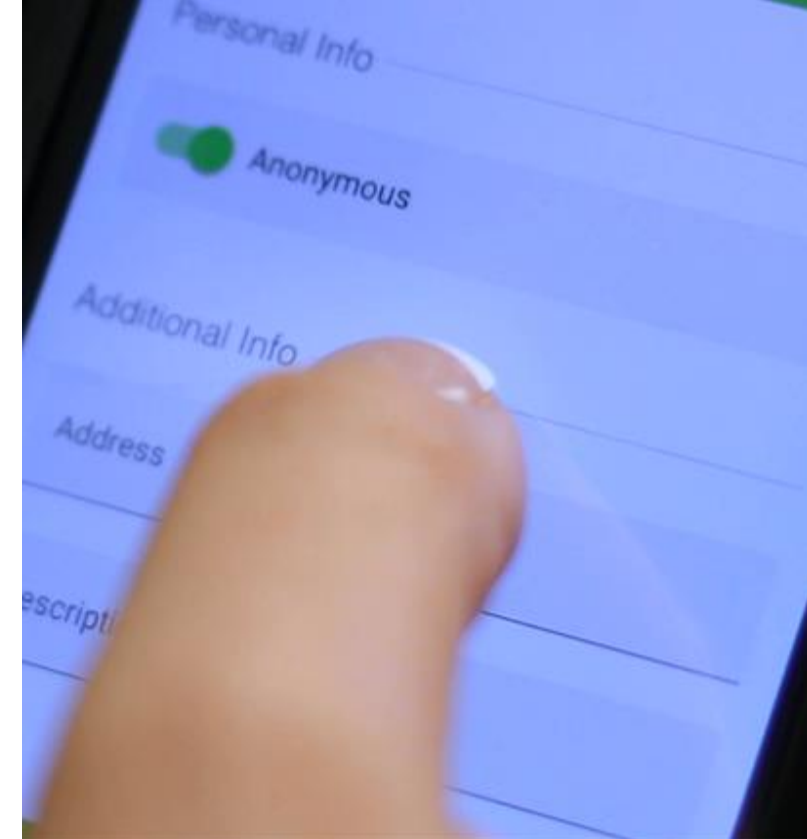

## Keep Columbia safe and informed with Fusus Notify and Fusus Tips

Text alerts can be sent directly out via the fusus platform to the community, keeping them notified of important events/incidents.

Tips can be sent directly into the Columbia Police Department through a text application designated for the City of Columbia.

# Community Camera Registry.

- It's a secure map of all the security cameras in Columbia, accessible only to the police department.
- It increases the efficiency of video evidence collection by enabling Investigators to identify cameras in the vicinity of an incident and contact you directly if they need your assistance solving crimes.
- It enables our community to work together, to create a safer environment for our residents, customers and neighbors.
- Camera registration is fast and easy via a secure online portal.

# Community Camera Sharing.

- Permission-based camera sharing takes community security one step further, helping you to get more out of your security camera investment.
- Permission-based camera sharing enables you to give first responders access to your camera feed in case of an emergency at your location. This can improve their response speed, and by giving them advance knowledge of the situation, help keep you safer.
- Security camera access can either be always-on, or only on an alert (such as the press of a panic button), depending on your preferences.
- If you choose to share your cameras, all you need is a small CORE device that you plug into your camera system. Once it's set up, it enables camera sharing without impacting your network.

# The Columbia Community Connect Program.

## 1 Account Setup

Upgrade to the Camera Sharing program following camera registration at [REGISTRATION LINK](#). Registration typically takes under 5 minutes to complete.

## 2 Pre-Configure

Prior to shipping, your fūsusCORE™ is easily pre-configured for your needs and is easy to set-up on a wide variety of network types.

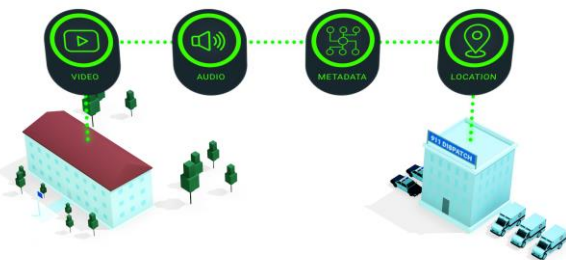

## 3 Plug & Play

Once connected, within seconds fūsusCORE™ detects, analyzes and connects the cameras on your network to the police department.

## 4 Incident Ready

Your fūsusCORE™ is now set up! Your location is now more secure, and the police department can access your camera feeds in case of an emergency or criminal activity!

# 1 County/2,300 Teachers Using fūsusALERT for First Responder Awareness.

The screenshot displays the fūsusALERT interface. At the top left, there is a 'Map' button and a search bar. The main area is a map of Lake County, Florida, showing various locations and roads. A sidebar on the right lists school locations, including Astatula Elementary, Beverly Shores Elementary, Carver Middle, Cecil E Gray Middle, Clermont Elementary, Cypress Ridge Elementary, East Ridge High, East Ridge Middle, Eustis Elementary, Eustis Heights Elementary, Eustis High, Eustis High Annex, Eustis Middle, Fruittland Park Elementary, Grassy Lakes Elementary, Groveland Elementary, Lake County Historic Courthouse, and Lake County Sheriff's Office. A Lake County Schools logo is overlaid on the bottom left of the map. The text 'Active Calls (LCSO)' is visible at the bottom center of the map.

## Keep Columbia Schools safe with fusus Emergency Alert

Emergency Alert System can be provided to the staff at the schools, which is compatible with all Android or IOS Devices.

Emergency notification will send immediate alert to the PD and to all Officers in the field. All internal cameras, if you choose can then be activated. The GPS location of the person utilizing the alert will be mapped, activating the camera closes to the alert.

# Respecting Privacy. Increasing Safety.

---

- This program ensures that camera owners will always retain complete control over who is able to access their cameras and when.
- Building a collaborative security network will enable officers to better understand unfolding situations and only intervene when necessary, and with an appropriate level of response.
- Remote security monitoring and the ability to digitally send incident footage to the police department will reduce unnecessary contact between police officers and members of the public and help result in better public safety outcomes.
- The community connect program will increase physical safety for residents and businesses, as well as reducing expenditures on property damage, aid in insurance claims, and increase the efficiency of the city's security services.
