Re: Support for maintaining or initiating a mask mandate

To Mr. Mayor and the Members of City Council:

The Disabilities Commission has voted to provide a letter of support for maintaining or initiating a mask mandate in the event this discussion comes before Council again in the future.

This Commission has agreed that a mask mandate would protect those citizens who have compromised immune systems, as well as protection of those who care for them. As a Commission working to protect those who have disabilities, we ask that this letter be put on record for informational purposes for the City Council to consider during future masking discussions.

Thank you,

Dr. Jacque Sample
Disabilities Commission Chair
